EDUCATION

VIT Bhopal University

B.Tech, Computer Science & Engineering (Cyber Security)

2023 – 2027

CGPA: 7.97

TECHNICAL SKILLS

Languages: C, C++, JavaScript

Web Technologies: HTML, CSS, React.js

Databases: MySQL, MongoDB

Cloud & DevOps: Basic AWS (EC2, S3), Docker, CI/CD, Git, GitHub

Core Subjects: Data Structures & Algorithms, DBMS, OS, CN

Tools: VS Code, Postman, Firebase

PROJECTS

AI Website Generator (MERN Stack) | Full Stack AI SaaS Project

- Built a full-stack AI SaaS platform where users describe an idea and AI instantly generates a complete, deployable website, handling 5+ concurrent generation sessions.
- Integrated Stripe Checkout for a credit-based monetization system, enabling users to purchase and consume credits per generation.
- Achieved production deployment with frontend + backend live, featuring one-click deployment of AI-generated sites with consistent uptime.
- Implemented JWT authentication, protected routes, and smooth UI with Motion animations, securing 100% of user workflows across 3+ page transitions.

AI Interview Agent (MERN Stack) | Full Stack AI SaaS Project

- Developed a full-stack AI Interview Agent simulating real-world technical and HR interview experiences across 3+ interview types for 5+ concurrent users.
- Implemented resume upload with PDF parsing to auto-generate 8–10 personalized questions per session across 2 categories: technical and behavioral.
- Built a feedback and evaluation module scoring performance across 4 key metrics with actionable improvement suggestions per session.
- Designed a credit-based SaaS system with 2 pricing tiers, secure Razorpay payment integration, and JWT-based authentication securing 100% of user workflows.

E-Commerce Web Application | Full Stack Project

- Developed a responsive React.js e-commerce platform tested across 4+ device breakpoints with Google Firebase Authentication, eliminating a 3-step manual registration flow.
- Integrated Razorpay Payment Gateway enabling secure end-to-end checkout in under 3 steps, alongside a complete Admin Dashboard managing 4 core modules.
- Implemented 5 core features — Add to Cart, Wishlist, Checkout, Order Booking, and Real-time Stock Updates — plus an AI-powered product recommendation system across 3+ categories.
- Deployed with zero-downtime redeployment support following modular component architecture for academic full-stack development.

CERTIFICATIONS

Google IT Support Professional Certificate | Google

- Trained in IT infrastructure, networking, operating systems (Linux/Windows), and cybersecurity basics.

Python Essentials Certificate | VITYarthi, VIT Bhopal University

- Covered Python fundamentals, data types, loops, decision making, lists, tuples, dictionaries, functions, modules, and packages.
